TO: EACH SUPERVISOR

FROM: P. MICHAEL FREEMAN

***UPDATE NUMBER 6 ON THE WILLIAMS FIRE***

There are no significant changes to the report provided to you earlier today on the Williams Fire. Fire suppression efforts continue to progress well and the weather has been cooperating.

The threat to the communities along the front country have generally been mitigated. There still is the potential for the fire to move into Mt. Baldy Village, although the fire has been progressing slower than originally anticipated. In addition, weather conditions are projected to continue improving over the next several days.

If you have any questions regarding the above, please let me know.
